

# NEW SECURITYHOLDER PACK

> SIMPLER, MORE FLEXIBLE SECURITYHOLDER COMMUNICATION

## FACT SHEET

## Enjoy the benefits of a straight forward, customisable and fully compliant New Securityholder Pack solution.

The short time frame for companies to create, issue and mail New Securityholder Packs (NSP) can needlessly increase the pressure on companies already managing the complexities of their Initial Public Offering.

With a ready-to-go standardised NSP solution, Computershare has the proven technology and processes to alleviate the burden of your NSP communication, ensuring its compliance, timeliness and adherence to your corporate guidelines.

### INDUSTRY STANDARD FORMS

Utilise our industry standard, widely used, suite of forms and make it easier for securityholders to fill in their information correctly, the first time around.

### EASY UPDATE NSP ONLINE

Provide securityholders with the convenience of completing their NSP online through our easy update NSP online wizard and save on print and mail costs and reduce environmental impact.

### NATIONAL CAPACITY

Take advantage of our national capacity to provide your securityholders with a range of contact options (online, phone, mail) to ensure replacement documents are sent within a day of being requested.

### REDUCED RISK

Keep all your data within the one system and reduce the risk of data leakage and synchronisation errors.

### FULL COMPLIANCE

Ensure the full compliance of your documentation with relevant laws and regulations.
