

FACT SHEET

Increase the timeliness, accuracy and integrity of data received and reduce investor response times to your tender buyback.

Speed, timeliness and accuracy are integral to any buyback process.

With Computershare's eBuyback application you can dramatically decrease the time it takes for shareholders to respond to a buyback offer.

eBuyback is an Off Market Tender Buyback application facility, which allows investors to apply to tender part or all of their shareholding online, under the terms and conditions of the Tender Buyback Booklet.

It is an easy and convenient way for investors to tender their shares, capitalising on the over 50% of new investors entering the securities market through online broking.

SPEED & ACCURACY

Receive applications instantly, improve the accuracy of data received and reduce processing time.

CERTAINTY

Provide your shareholders with the certainty of instant notification of application receipt, and reduce the risk associated with documents becoming lost in the mail.

CONVENIENCE

Maximise the uptake of the tender buyback by providing shareholders with an alternative channel to traditional mediums, and cater to time poor, web-savvy investors.

DATA INTEGRITY

Ensure the integrity of data is protected through our secure website with a secure login process and encryption data transmission.

SIMPLE

Investors benefit from an easy to follow five-step process without the added hassle of mailing or faxing forms and the ability to adjust or withdraw their application until the end of the offer.
